Watergauge MEP is a professional and environmentally conscious company, we acknowledge the impact that our operations may potentially have on the environment, we realise that the work we undertake and our related activities, if not managed correctly can be hazardous to the environment therefore we are committed to conducting our operations in an environmentally responsible manner, to protecting the environment and achieving the highest standards of environmental care in all our undertakings and in doing so will comply with all current legislation. The clear objective of Watergauge MEP is to minimise any impact on the environment by:

- Preventing pollution, reducing waste and ensuring wherever practical measures are implemented to protect and preserve natural habitats, flora and fauna;
- Considering the effects that our operations may have on the local community;
- Taking action to eliminate or reduce as far as practicable, any potentially adverse environmental impacts;
- Seek to work in partnership with the community by behaving in a considerate and socially responsible manner;
- Conducting our activities in a considerate manner;
- Adopting the waste hierarchy of prevention, reduction, reuse and recycling
- Ensure effective and expedient incident control, investigation and reporting

Watergauge MEP will fully comply with the duties placed upon them within the requirements of Statutory Legislation, whilst at all times complying with, as a matter of best practice, the requirements and duties set out within Approved Guidance as issued by the Environmental Agency and other organisations.

All employees and sub-contractors are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own works, so far as is reasonably practicable, are carried out without risk to themselves, others, or the environment. This includes co-operating with management on any environmental related matter.

Watergauge MEP will take all practical steps to ensure that potential hazards and risks to the environment are identified and that suitable and effective preventative and control measures are implemented.

All employees will be provided with the necessary resources, equipment, information, instruction and training to fulfil the requirements of this policy.

The Director has overall responsibility for all Environmental matters. The operation of this policy and the associated procedures will be monitored and reviewed on a regular basis to ensure that they remain current and applicable to the company's activities. This policy has been endorsed by the Director who fully supports the implementation of the policy.
